

## APPRECIATED PRAISE FROM AGME CO.—"OUR ADVERTISING IN THE DAILY CAPITAL IS BRINGING GOOD RESULTS"

### THAT BIG MAN IS FOUND IN THE UNITED STATES

A. V. Bouillon, of Seattle, Was Appointed Public Works Commissioner at Last Night's Meeting of the City Council—His Salary is \$10,000.

"I beg to apply for the position of public works commissioner of your city at a salary of \$10,000 a year. Trusting this will receive your favorable consideration, I remain yours truly,  
A. V. BOUILLON."

The above letter was read last night at the regular meeting of the city council. Ald. Gariepy moved that the application be accepted and that Mr. Bouillon's services commence on or before May 16th, 1910. Ald. Mould seconded the motion, and with little or no discussion A. V. Bouillon of Seattle was formally appointed public works commissioner of Edmonton.

That such an important step should be taken without any discussion or without any formal report to the council by Mayor Lee and Ald. Gariepy, who formed the committee to recommend a public works commissioner, seems rather strange. But the fact is that the whole matter was "cut and dried" before the council met. So late yesterday afternoon a secret meeting of the aldermen was held in the council chamber. The public were not expected to be present and the press was not even informed that such a meeting was to take place. When all the aldermen were in their places one can imagine some such scene as the following taking place:

Mayor Lee and Ald. Gariepy entered the room accompanied by a small dark man. He is small but he has a large head with a prominent forehead. Piercing dark eyes stare out from under black bushy eyebrows. A small and bristling moustache adorns the upper lip. He is dressed in dark navy blue suit, and the only touch of color is a brilliant red necktie.

All eyes are turned on the stranger. Then the mayor announces: "Gentlemen, let me introduce to you the gentleman that we have secured for public works commissioner—Mr. A. V. Bouillon, late public utilities superintendent of Seattle." (Tableau.)

After this, credentials are produced. Mr. Bouillon has an exceptionally good history. He has a long and creditable record as a utility man. "He is an engineer by profession. For twenty years he has been a resident of Seattle where he has served as assistant city engineer and superintendent of the public utilities. Last autumn he retired from the city's service in order to run for the office of mayor, but was defeated in the primary of the Republican party by the machine element. He only asks a salary of \$10,000. The aldermen are satisfied with the records. Mr. Bouillon is just the man they have been looking for, and he is assured that he will put in his application it will be accepted unanimously. And it was so, as can be readily seen, there was not a great deal to be said at the public meeting of the council last night.

### CANADIAN CONTROL OF NAVY ASSURED

Conservative Leader Wanted it to Pass Automatically to Britain in Time of War.

Ottawa, April 20.—The government's most bill was put through committee yesterday and stands for third reading today. The debate, which occurred in committee of the whole, when a member can speak as often as he chooses, was confined largely to clauses 4 and 18. The light on clause 18 resolved itself for a time into a duel between Sir Wilfrid Laurier and R. L. Borden. Towards the end, Mr. Fielding took a hand. Mr. Borden showed no disposition to recede from the position that in time of war the Canadian navy should pass automatically to the British Admiralty, while Sir Wilfrid Laurier and his colleagues maintained with equal vigor that Canadian control was essential. No amendment was offered in this clause which was finally allowed to pass.

pendent of the public utilities. Last autumn he retired from the city's service in order to run for the office of mayor, but was defeated in the primary of the Republican party by the machine element. He only asks a salary of \$10,000. The aldermen are satisfied with the records. Mr. Bouillon is just the man they have been looking for, and he is assured that he will put in his application it will be accepted unanimously. And it was so, as can be readily seen, there was not a great deal to be said at the public meeting of the council last night.

Mayor Lee informed a Capital reporter last night that he and Mr. Gariepy had only been in touch with Mr. Bouillon for a short time. They had heard of his success in the appointment of public utilities in Seattle, and so had wired to him. Negotiations were opened up, and yesterday morning Mr. Bouillon arrived in Edmonton. He was taken on a tour of inspection of the various utilities operated by the city. Mr. Bouillon expects to leave for Seattle this afternoon. He will immediately close up his affairs there, and return to Edmonton as soon as possible, when he will assume the duties of his new office.

In speaking of the new man at the council meeting last night, the following were some of the sentiments expressed:

Ald. Gariepy: "We have documentary evidence that he is a good man. He appeals to me as most trustworthy."

Ald. Mould: "The salary is high, but as far as I can see, he ought to be worth it."

Ald. Hyndman: "With his experience, Mr. Bouillon ought to be able to steer Edmonton safely through the diseases of childhood."

It is rather noticeable that the new man from the States after all in spite of some of the patriotic suggestions of some of the aldermen, Ald. Hyndman, too, has evidently changed his mind, and is going to Glasgow, the fountainhead of municipal ownership of public utilities, for a public works commissioner. Another feature is the fact that the new man comes from one of the cities that Mayor Lee and Ald. Gariepy did not visit in their long tour in search of a commissioner, and what's more, he comes from a city a good deal nearer home than was at first thought possible.

### WILL SIR WILFRED VISIT THE WEST

Liberals are Trying to Make Him Promise to do so Next August.

Ottawa, April 20.—Western Liberal members will wait upon Sir Wilfrid Laurier in regard to his tour of Western Canada. Since he assumed office as Premier in 1896, his public duties have prevented Sir Wilfrid from touring the West. It is believed that next August he will make a trip through to the Pacific Coast. The members from the West will endeavor to secure from him a promise to this effect before the session closes.

### LOVE LETTER BY THE WIRE

That's the Most Popular Form of Lettergram.

BUSINESS MESSAGES NEXT

Operators Have had to Stand for a Lot Since the Service Began Here.

Have you sent a love lettergram to your sweetheart or life yet? If you haven't it's time that you got in the swim. Love, society, business and nonsense, are some of the many subjects of the lettergrams that the local telegraph offices have handled since the inauguration of the lettergram service last Thursday evening. Already over two hundred lettergrams have been sent from three local offices and everything points to the fact that the service will prove extremely popular.

There is no end to the subjects that are the occasion of the messages. Love and business head the list in numbers. Imagine what some of the operators had to endure. The following is only a mild sample:

Edmonton, April 15.

My dearest darling:

Just a little lettergram to tell you that you are the most delicious, delightful girl that I know. And this is the first time that I ever said this to any girl in a lettergram. I'll see you on Sunday and won't be glad. Adorably, Bobbie."

The above is only a mild suggestion of what is really sent from anonymous swains to their lady-loves. Love letters predominate, but society is also taking kindly to the idea of sending lettergrams. A lady belonging to the Calgary Four Hundred set notified a friend in Edmonton that she had been invited to come up for a bridge party, and it took her the whole fifty words to tell it, too. Similar arrangements are made and social calls arranged for, all over the wire, and the beauty of it all is that you don't have to make excuses for not writing a longer letter.

Hard to Fill Up.

"It's funny how some people make desperate efforts to get the fifty cents worth," remarked one operator. "It is evidently the cause of some worry, for some people quite plainly had to break through the family difficulty for words to fill up."

When a Capital reporter went into the C. P. R. offices yesterday afternoon to see what sort of business they were doing, Mr. R. B. Bennett was there just sending a lettergram to Calgary. "It's so cheap that I think I'd ask him if he's keeping the business going all right in my absence," remarked he to the reporter.

The C. P. R. are handling lettergrams at a rate of about fifty to seventy a day since the service was started and from all indications this number will be largely increased as the people become better acquainted with the idea. The C. N. R. have also done a good business in lettergrams, was from a traveller to G. W. Murphy & Co. of the grand exchange, Winnipeg.

The cheapness of the lettergram is what appeals to the people. One can send 50 words from here to Calgary for a quarter, and most everybody can say all they want to in that many words.

### THE WEATHER

Manitoba: Fair today and on Thursday, with higher temperature. Saskatchewan and Alberta: Few scattered showers, but generally fair and warm.

Fair weather has prevailed throughout the Prairie Provinces. Temperatures have risen in Manitoba. In Saskatchewan and Alberta it has been decidedly warm.

Expert watchmakers, Jackson Bros. All work guaranteed.

### IMPERIAL BANK STOCK

Directors Decide on a New Issue of a Million Dollars.

Toronto, April 20.—The Imperial Bank directors have decided to issue one million dollars new stock to the present shareholders in the ratio of one share of new to five shares of old stock. The issue price will be \$20.

### PRAIRIE FIRES BURNING.

Lloydminster, Sask., April 20.—The town of Lloydminster was saved in the early hours of this morning from a fierce prairie fire only escaping through the efforts of the townspeople. The danger was over at five o'clock, though the fire is still sweeping the district.

Regina, April 20.—Large prairie fires have been burning south of the city for the past two days. Today, however, the fire was partly under control. There have not been so bad for three years past.

### COOKED NEWS FOR SLANDER

Winnipeg Man's Scheme was to Knock Western Canada.

TO KEEP IMMIGRANTS AWAY

Newspaper Man Saw Big Money in a Proposition He Made to United States Railways.

Winnipeg, April 20.—A Winnipeg newspaper man has been made an offer by certain United States railway companies to supply them with a new service derogatory to Canada. These facts have been reported to J. Bruce Walker, Commissioner of Immigration, and he is preparing to enter protest against this journalist on the first message of the kind proven. He has been instructed from Ottawa to push the prosecution to the limit, and the power of the Dominion government is behind him.

In speaking of the matter, Mr. Walker stated that this man, who is employed on one of the city papers, has sent a letter to the presidents of several of the railways whose traffic may be interfered with by the exodus of United States farmers to Canada. These are the lines which serve the south and southwestern States. One of these letters has been forwarded to Mr. Walker by the president of a railway who was too big a man to have anything to do with such a campaign.

The proposal is that a telegraphic news service should be sent to the companies and that they should distribute items to the various newspapers in the towns along their lines. The payment was to be on the basis of a certain sum per line. It was to deal with agricultural and climatic difficulties which new arrivals meet in Western Canada, the idea being to dissuade farmers from leaving their native states.

### DIED OF HEART FAILURE

Death of Toronto Clerk Official Resulted From Broken Collar Bone.

Toronto, April 20.—C. S. Grant, Assistant Registrar of the Court of Appeals, died in the General Hospital yesterday from heart failure as the result of having his collar bone broken by being run down by an auto some days ago. He was 55 years old.

Try a bottle of Beef, Iron and Wine for a spring tonic. \$1. Edmonton Drug Co.

### ZELAYA WAS HARD ENEMY

Battenburg Settler had Exciting Times in Nicaragua.

PUBLISHED A PAPER THERE

Robert F. Truss has Taken up a Quarter Section Near This City.

From Nicaragua to Battenburg is a far cry. For twelve and a half years R. F. Truss has made his home in the Central American republic, which has of late supplied so much material to the newspapers. He has had his fill of excitement and now he proposes to seek peace and contentment on a quarter section in the district that has taken his fancy twenty-five miles to the north of Edmonton. The fact that three weeks ago he was married down in Indiana has served to confirm him in this desire.

Mr. Truss is a native of Brantford, Ontario. In the office of the Examiner in that city he had his first lessons in journalism, qualifying himself for work not only on the editorial but on the mechanical end of the newspaper. But all this was merely in preparation for seeing something of the world at large. He remembered Shakespeare's declaration that "some keeping youth both ever homely wild," and the year 1898 saw him employed on a cattle ranch in Texas. Here he acquired an excellent knowledge of Spanish and he determined to push further south, where, through Mexico and finally landed in the interior of Nicaragua, where he became impressed with the possibilities of coffee-growing. He invested all the money at his command, and all that he could induce his friends to invest, in a large plantation. For eight years he experienced all the ups and downs of a business venture in a country where industry is not too well protected. Finally a disease overtook the coffee plants which brought calamity to the enterprise. All his dreams vanished into this air. With ten dollars in his pocket and a horse which he had saved from the wreckage of the plantation he started for the Caribbean coast. Bluefields was his destination and the journey took three weeks.

Being severely up against the problem of making a living his thoughts naturally recurred to his newspaper experience. After some effort he succeeded in establishing a weekly journal, the Bluefields American, printed in English and Spanish. Associated with him was Mr. George G. Giddens, formerly editor of the Toronto Weekly Sun, who owned a rubber and banana plantation near by. They lost no time in calling attention to the gross corruption and tyranny of the government of the so-called President Zelaya, whose name through recent events is already a familiar one to readers of the Capital. One particular cause of complaint was the monopoly which Zelaya gave to certain banana operators which allowed them to crush their rivals and to keep the population on the verge of starvation. They began a poor red-hot editorial shot into the government camp and to incite the people to revolution. In Nicaragua, it should be mentioned, this is the only way of turning out a government.

Anyone who attempted to offer himself as a candidate against the president in the ordinary constitutional fashion would be immediately shot. The risk that the editors of the American underwent through their policy was soon apparent. One day Mr. Truss went up the coast for a considerable distance in a sailing vessel to get particulars regarding a hurricane which had devastated a village. On his return he found that Mr. Walcott had been shot at and missed while walking down the street and that the local governor had entered the American office and chased the Spanish printers out at the point of the pistol, later taking the newspaper forms and putting his foot through them. These were quite ordinary incidents, but in spite of them Mr. Truss

Continued on Page Four.

### McKINNON AND WADDELL INTERESTING WITNESSES

Before the Royal Commission This Morning Dr. Waddell Reiterated his Statement That his Intention Was to Build a First Class Road.

Although the Waterways investigation today is not breaking any records for sensationalism, the witnesses are proving interesting. Dr. Waddell, chief engineer of the Waterways Company and J. A. McKinnon, purchasing agent of the construction company, were both on the stand today, and although it was generally supposed that they would prove poor witnesses for the insurgents, it is plainly apparent that they are anxious to tell all they know and are not trying to shield anyone or keep anything back.

R. B. Bennett, chief counsel for the insurgents, is very plainly trying to connect McKinnon with the project in a political way and is endeavoring to prove that he was kept very closely in touch with the situation here. He said that he could in turn keep Clarke informed of all developments.

The feature of today's session, however, was the long statement made by Dr. Waddell at the end of his examination in which he explained his position, stating plainly that the road would be built in a first class manner or that he would have nothing to do with it.

Dr. Waddell Re-Examined.

Today's session opened with the examination of Waddell by Mr. Johnston. He produced a copy of the contract made between Dr. Waddell and Clarke whereby the former was to receive \$25,000 per year and \$75,000 bonus. This latter was for other services and advice outside that given in his capacity as engineer of the railroad and the financing of its bonds, and his assistance in getting the negotiations closed up with the government for the guarantee of bonds. Mr. Johnston also produced several telegrams which had been sent in connection with a conference between Dr. Waddell and F. S. Darling, the engineer who was looking after the interests of the Royal Bank in the Waterways project. The telegrams were decoded but were not of any importance and witness gave New York as the present address of Mr. Darling.

Mr. Johnston also asked where Mr. James, general manager of the company, was now, and witness replied "in Winnipeg."

"Where is Mr. Clarke now?" continued Johnston.

"The last I heard of him he was in St. Paul," said Dr. Waddell. "This I learned from the telegram from him which was referred to yesterday."

"Where are Mitty and Bowen?"

"I have not the least idea."

(Continued on Page Five)

### CANADIAN WILL BE FIRST COMMANDER

Son of Senator MacDonald, of Victoria, Will Have Charge of H.M.S. Niobe.

Victoria, April 20.—Commander Wm. Balfour MacDonald, son of Senator W. J. MacDonald of this city, and a native son of Victoria B.C., has been appointed to command of H.M.S. Niobe, recently bought by the Dominion of Canada to be stationed at Halifax as the first warship of the navy of Canada that is to be. He has served with distinction in the Royal Navy and was decorated by Kaiser Wilhelm of Germany on the occasion of the Kaiser's last visit to England. Commander MacDonald was despatched to meet the incoming cruiser with the Kaiser on board and which he will sell in a thick fog. His clever navigation attracted marked attention of the German Emperor and he was given a high German decoration.

Marriage Licenses issued. Jackson Bros. Jewellers.

### PRINCE OF WALES HAS GIVEN \$2,500

Royal Contribution to Archbishop's Western Canadian Fund Which is Now Over \$70,000.

London, April 20.—The Prince of Wales has contributed \$2,500 to the Archbishop's Western Canada Fund after expressing his deep interest in the fund, having himself visited Western Canada. The Prince of Wales said that he realized the difficulties arising there from the extraordinary immigration and trusted that the appeal in connection with such work would receive generous aid. The fund has now reached \$71,140. It is estimated that \$1,225,000 will be subscribed.

Four Killed, Not Twenty-five.

Ottawa, April 20.—A telephone message to District Engineer Mackay, who is in charge of the section of the National Transcontinental Railway where the accident occurred on Sunday, says that only four men were killed and ten injured.

## PLAYERS GET DOWN TO WORK

The Deacon had two Sessions Yesterday—Moose Baxter is a Welcome Visitor in Town for a few Months.

There were more fans at Diamond Park yesterday, than attended some of the scheduled games at the close of last season.

From the preliminary work of those players now on hand it is apparent that the Deacon has corralled a real ball team, and he assured of loyal support from the public. Never before have the citizens showed such anxiety for the season to commence, and the talk of a winning team is a great factor in the enthusiasm. No town likes to lose, and people last year could hardly be blamed for falling to arms and support Dinny McGuire's antics.

This year things are entirely different. Deacon has not gone blindly forward, signing men with their reputations an unknown quantity. While he has a couple of young players on his roster, the majority of them are tried players, like Moose Baxter and Pete Morse, who will serve to steady down the new blood.

The team put in three hours' work yesterday afternoon, and Deacon kept them on the jump from the very start off. The hard workout of the day didn't seem to leave any bad effects, and the men all went at their exercise as if they enjoyed it. After the warming up, and a hour's batting practice, the fielding followed, and certainly took the eyes of the fans. The men took the following positions: Mills, 2d base; Morse, s.s.; Schultz, 1st base; and Moose Baxter on first. Graff, left field; Olsen, centre, and McLair, right. Deacon did the batting act at the plate and Graff added the willow in the infield. With Barney swinging the fungo, the whole squad was in action.

Moose Baxter, who stands about 6 feet 3 or 4 inches, can stop nearly anything within a mile of him and is the only kid in the initial sack. In the centre of the diamond Pete Morse and Schultz look like fixtures. Their work fits in, as if they had been playing together for a season. They are both accurate throwers, and don't give Moose much trouble. Mills, at third, is showing up well, but is a little slow in getting the ball away from him. He will quite easily overcome this failing.

It is hoped that Barriage gets here today, as the pitchers are practically at a standstill. McLair and Graff are

## THE BETTING WILL BE HEAVY

Bob Murphy Predicts That Between Four and Five Million Dollars will Change Hands on the Big Fight.

New York, April 20.—New York sporting men today figure that as a betting proposition the approaching fight between Jeffries and Johnson will be without an equal in the history of the sporting world. Bob Murphy, proprietor of the Hotel Albany, who was stakeholder of the forfeit money put up by the fighters before it was finally delivered into the hands of Big Tim Sullivan, believes that between \$4,000,000 and \$5,000,000 will change hands as a result of the fight. Aside from the cash that he is already holding as a result of the bets made early, Murphy has heard of a lot of big bets, and declares that he has heard many others made tentatively, the money to be posted just before the big fight.

It is remarkably that all the early betting is at even money, and New York sports are inclined to believe that the odds will not vary even on the day of the fight, unless one of the big men shows a decided lack of training.

All along it has been believed that Jeffries would be as good as a 10 to 8 favorite, but there is plenty of Johnson money in sight, and Johnson's backers are willing to take all the bets offered at even money.

Murphy, who is a keen Jeffries man, cannot account for the confidence displayed by the Johnson followers. He believes that at this time the betting should have favored Jeffries by at least 5 to 3, but Johnson's financial backers are so sure that the black will whip the boiler-maker that they are not holding back for odds.

## NOTICE OF ANNUAL MEETING

The annual meeting of the Alberta Amateur Lacrosse Association has been called by the president, Dr. Stanley, for Tuesday, April 26th, at 10 a.m. The meeting will be held in Calgary and all clubs intending to play in the association this year, are requested to have delegates present.

contenting themselves with lobbing them over, but Graff and Olsen, and Olsen, in showing the ball away from him. He will quite easily overcome this failing.

It is hoped that Barriage gets here today, as the pitchers are practically at a standstill. McLair and Graff are

## THEY WILL BE ON THE JOB

Winnipeg Sports will be at the Ringside on July 4th—Bet Big Nick has a Ticket.

Winnipeg, April 19.—According to reports Winnipeg will be well represented at the biggest fight in the history of the game, when Jack Johnson and Jim Jeffries took up on July 4. Many of the city sportsmen have signified their intention of taking the long trip to see the mix-up. There is a party being made up among the grain exchange men and it is expected that there will be a dozen or more leave from this place. Jack Gleason who is looking after the ticket sale, says that there have been many requests from Winnipeg for tickets, which intimates that there will be a strong following from the prairie city present at what is expected to be the greatest fight on record.

## GENTLE BILL CARNEY

Speaking of Calgary's new manager, the Winnipeg Free Press says: "Bill Carney, of Calgary, is a good man, and is possessed of ability, without being quiet and unassuming."

That's a new one on "Bad Bill" Carney. Nobody can claim that he was "quiet and unassuming" before. Wait until the Free Press sends him back getting after an umpire who has given him the short end of it. There won't be anything "quiet and unassuming" about the remarks Bill will put out. At that there will be few better managers in the league than Bill Carney. —Medicine Hat News.

## Promoter Insures Fighters

San Francisco, Cal., April 20.—Tex Rickard has taken out \$30,000 insurance on Jeffries and Johnson with Lloyds of London. The policy provides that Lloyds will pay over this sum to Rickard should either fighter injure himself or default in any way. For this guarantee Rickard pays a premium of \$3,000.

## CAMERON WON BOSTON RACE

Did not Approach Tom Longboat's Record—First Four to Finish Were Canadians.

Boston, April 19.—Fred L. Cameron, a Canadian representing the Ramblers Athletic Association of Amherst, N.S., won the Boston Marathon from 160 of the best long-distance runners in the world, leading the crowd from start to finish. For a large part of the journey Jim Corcoran, Toronto, was second, but after the sixteenth mile he began to lag and was beaten for second place by C. H. Demar of Dorchester. The time was wonderful, considering the heaviness of the track, being 15 minutes faster than last year and but four minutes behind Longboat's time.

The 160 men started promptly at 12 o'clock and kept well bunched for the first few miles. In the road despite yesterday's rain was in fair condition and the day was cool and bright. It is estimated that 30,000 people witnessed the contest.

The first twenty to finish in the Marathon were:

1. Fred L. Cameron, Amherst, N.S., time 2 hours, 25 minutes, 53 2-5 seconds.
2. Clarence D. Demar, Dorchester, time 2 hours, 20 minutes, 53 2-5 seconds.
3. James J. Corkey, Toronto.
4. John R. Roe, Toronto.
5. H. J. Ryan, New York.
6. John J. Reynolds Jersey City, N.J.
7. Eugene McCormack, Toronto.

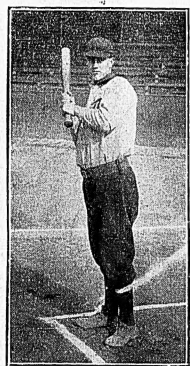

## Y. M. C. A. VS. NORWOOD

The Y. M. C. A. team to play against Norwood on the Norwood grounds at 6:30 this evening will be: Pre, Winstanley, Lloyd, Coombs, Roughton, Stockdale, Tompkins, Grant, Crews, Newman, Roids, and Hotchkiss.

## ANY REFEREE WILL SUIT JEFF

Former Champion Says any Man who Understands Game Thoroughly will do—Is Fast Getting Into Shape.

Ben Lomond, Calif., April 20.—Visitors to J. Jeffries' training camp today saw the former champion stripped to the waist, go through his stunts. After laboring vigorously with the chestweights for an even hour, Jeffries suddenly concluded that it was too warm work. He removed his heavy undershirt in which he had exercised heretofore. He then went at the punching bag with vim. In the bright sunlight, he loomed up big and almost as muscular as in former days. His two week's training has already removed considerable superfluous fat from the upper part of his body, while there is only a trace of fast fading paunch. When J. J. Jeffries was informed that Jack Johnson had declared in favor of Jack Welch for the referee of the coming fight, he said: "I don't believe I have given the question of a referee a moment's thought. Personally I don't care who the third man is so long as he understands the game thoroughly."

PETE MORSE

Shortstop of the Edmonton Baseball Team. Splendid Fielder and Hitter.

## A NEW TENNIS CLUB

All persons interested in the formation of a West End Tennis Club are requested to meet at H. A. Dickie's office, Room 104, Windsor Block, on Monday afternoon next (April 25), at five o'clock p.m., when the matter of the formation of a club and acceptance of certain grounds offered for the purposes of the club will be discussed. It is hoped that all persons interested will attend, as it would be advisable to start work preparing the grounds immediately.

The Ottawa Hockey Club had a defeat last season of 700.

## TIM SULLIVAN WAS IN COURT

The Senator was Hauled Into Court to Tell Whether He Really has \$20,000 of Tex Rickard's Money.

tim sullivan 44-101m xed11R says New York, April 19.—Senator "Big Tim" Sullivan's supposed possession of \$20,000 in cash which Tex Rickard put up for a guarantee when bidding for the Jeffries-Johnson fight led to his appearance in the supreme court here Saturday. He was subpoenaed by a Dr. Cookey, who wanted "Big Tim" the stakeholder to submit to an examination as to whether he had that much money belonging to Rickard. Sullivan's attorney moved that the subpoena be vacated. Justice Greenham remarked that if Sullivan did not wish to be examined he could pay the amount of the claim. This caused Big Tim to smile.

## CITY LEAGUE NEEDS TROPHY

Amateur Baseballers Have no Cup to Designate the Championship—Here is a Chance for Lovers of Amateur Sport.

This season, Edmonton is going to see some fast amateur baseball. The city league, recently reorganized, and with President Alf. Fidler at the helm promises to provide keen competition. The four teams, Fred-Canadians, Y. M. C. A., Norwood and Wheelers are evenly matched, and there is ample amateur talent in the city to support four senior teams.

Here is a good chance for some amateur supporter of amateur sport to present a trophy to the League. The City Baseball League at present, has no cup for competition, or nothing to signify that a certain club has won the championship. Citizens have proved their generosity by donating silverware for foot races and every other line of sport imaginable and it is hoped that some one will step into the breach and give the Baseball League something to play for, besides the bare title "champions."

It might also be a good thing if some of the other merchants in the city, following the example of La Fleche Bros., who are giving a suit of clothes to the best batter in the Edmonton B. I. Club, would likewise for the amateurs. Their prizes would be very much appreciated and besides, it would prove an excellent advertisement for the donors. The first game in the City League takes place on Tuesday, May 31st, when Irish-Canadians meet Norwood. The majority of the games will be played at Taylor Park.

## LACROSSE PRACTICE

There will be a lacrosse practice this evening at the new grounds on McDougall avenue (the site where Horner's rink was formerly). All those who are trying for the team are invited to turn out.

## ALL SHAVED AND MASSAGED

Bill Carney Makes his men Visit the Barber Shop Before They can do the new Blue Suits.

The third game in the Seattle-California series resulted in a win for the home team by 9 to 8. This score does not indicate anything wonderful in the line of ball playing, but Calgary papers will dilate on the closeness. Mr. Robinson of Calgary, states that in Clynes, Carney, and Tallant, Calgary has the fastest and best outfield in the Western Canada League. Kellackey is a wonderful first baseman and often hits home runs. "The team work of the Huskies," says Mr. Robinson, "is like machinery, but how it is done, I cannot say." My word, it certainly is wonderful how the team work could be perfected in three games. Truly, Mr. Carney must be a wonder.

"The boys look well in their dark suits with white trimmings and military collars," continues the rap Mr. Robinson, "and Carney has them looking like new pins even to the shave and massage."

Where's some class to this man Carney. However, the occasion on which Robinson saw the Huskies perform, must have been Arbor Day in Seattle. Hence the cleaning up. But, speaking seriously, Bill has got a mighty fine aggregation together and if the Eskimos pan out up to expectations, there will be some great old series, when the old rivals, Calgary and Edmonton, get together. Wish that schedule would appear.

## Kitch. on the Fight

Lord Kitchener, the blooming sardar who lit in town (somewhat unheralded) the day immediately previous to yesterday, granted us an exclusive interview on the subject nearest to his heart, the contest Jeffries vs. Johnson, the same being as follows:

Reporter (standing): "Our readers would like very much to have your lordship's distinguished opinion on the pending championship of the world." Lord Kitchener (sitting): "I haven't earned a halcyon word about it. Run away." —Chicago Tribune.

A society item from the Seattle Post-Intelligencer says: "Some young gentlemen from Calgary were in our midst last week. They wore nice clothes but can't play baseball."

So, Bill Carney has his players shaved and massaged before going on the field. That dark stubble of Don Gouche's will keep the barbers busy.

Seldom do barnstorming trips pay. Mike Kelly, manager of the St. Paul club of the American Association, is heading over a trip his team has just finished. In Quincy he collected \$9 and at Hannibal he got twice that amount. Guess that's frenzied finance.

In securing Harry McIntyre, Frank Chance has greatly strengthened the Cubs and at the same time Brooklyn has helped itself, as Tony and Happy Smith and Walter Davidson should bolster up the Superbas wonderfully.

## With Jessie MacLachlan

Mr. Craighill Sherry, the famous Scottish humorist, who is a member of the Jessie MacLachlan Concert party that appears here on April 2nd at the Empire, is bound to appeal to all classes. This is Mr. Sherry's first appearance in Canada, but his name is a household word in Scotland. The secret of his success lies in his wonderful powers of characterization. It matters not whether the subject he is of Dickens's types, a village loon, or some drawing room celebrity, he depicts it with fidelity and keen insight into human nature that can only be accomplished by one possessed with the spark of genius. Mr. Sherry's humor is so refined, yet at the same time so mirth-provoking that it takes him but a moment to establish himself a prime favorite with his audiences. He is most versatile, and his entertainment will no doubt afford keen enjoyment not only to those born in Bonnie Scotland but to all Canadians as well.

## LACROSSE CLUB SECURES GROUNDS

For the Time Being the Team will Practice on the Field Formerly Occupied by Horner's Rink.

The committee of the Edmonton Lacrosse Club have made temporary arrangements for grounds. For the present the team will practice on the large vacant lot on McDougall avenue, which was occupied last winter by Horner's rink. This lot is in excellent shape and quite large enough for team practice.

When games with outside teams are to be played, which necessitate an admission fee being charged, same will be pulled off either at Diamond Park or the old Exhibition grounds.

The committee wish to notify all lacrosse players who intend trying for places on the team, that the McDougall avenue ground is now available for practice. A meeting will be held very shortly, when regular nights will be set.

## Alberta College vs. Callicies B.

On the Exhibition grounds tonight the above teams will meet in a friendly game. The Callicies are trying a new bunch of players and the committee hopes to see a good turnout, as the league will soon be open. Game starts at 6:45. Trainer White will be on hand with the new colors for the busy bees, who hope to show the A's how to get the goats.

## Crowds at Opening Game

New York, April 19.—The figures compiled today show the opening of the baseball season of 1910 was one of the most remarkable in history in point of paid attendance. The total attendance in the National and American drew 76,224, while the National drew 8,000. The greatest crowds saw the American league games in New York and Chicago, where 25,000 persons attended each game. The smallest crowd was in Boston, where but 11,000 persons turned out to see the Braves defeat the Giants.

## COAST PAPERS LIKE CALGARY

The Huskies Made a Fine Reputation for Themselves in the Series Just Completed With Seattle.

The following is taken in part from the report of the first game in the Seattle Post-Intelligencer, thus: "It was the first time Bill Carney's bunch worked out together. Any one who thinks he has not gathered together a fast bunch has a second guess coming. They look formidable now, and will be better in a few days, when they get accustomed to one another."

Getting down to facts of the game, each team was only entitled to one run. All the other runs were due to wild pitches, or elevated bases and der pressure. Gechan, a Tacoma boy, pitched the last four innings for Calgary, after Standridge dropped out. Gechan showed good form, holding the sluggers to two hits, but spoiled everything by making two wild throws that let in an equal number of runs.

Tallant, the former Stanford boy, who is playing centre for Calgary, showed up very fast, and looks good. Smith, the former third sacker, for Vancouver, is awfully fast for a big man, and he covers his bag real well. Dugan is playing a swell game at short. The Seattle boy has at last got around to showing the local fans something of the class attributed to him while at school in California. In handling thrown balls he is a wizard. He is very fast and covers lots of ground.

## THE DAY IN STRATHCONA

Budget of News from the City on the South Bank of the River

### Strathcona Council.

Present, Mayor Deagan, Aldermen Richards, Tipton, Leachman, Dunman, Pollock, Bush, Condon.

Communications were received and dealt with.

The Good Gasly & Co. Toronto, were soliciting the sale of Strathcona debentures and stating that the market may not be as good later in the year as it is at present.

The Board of Trade were relating

to a resolution which they brought to the council in November that city commissioners be employed here. It had been left over for the present council to deal with. On motion of Ald. Richards seconded by Ald. Pollock, the secretary was instructed to write the board of trade that the council did not see their way clear at present to appoint a commissioner.

Dr. Murphy, V.E. wrote requesting that the \$4 tax on licences be lowered

to the ordinary dog tax of \$2. This was referred to the finance committee.

The Alberta Municipal Federation Committee wrote thanking the council for their donation of a site for a garage. A petition was received for water and sewer connections along Third Avenue north from Third to Fourth streets and was referred to the committee.

A deposition was received from aldermen and members by C.E. Terrence and Mike Helyuk. They represented that agents from Edmonton were canvassing the town without license and were making immoderate claims. Mr. Terrence stated that three agents canvassed his own home in the same time of business as himself. Carl Henningson of Edmonton stated his case and that he desired to remove the town. The chief of police was instructed to enforce the license act.

Ald. Condon reported for the water and sewer committee and recommended that the brewery be given two weeks' connection with the water mains. Some discussion followed and the matter was referred to the chairman of fire and light the chairman of water and sewer committees, and the superintendent of the waterworks with power to act. Ald. Leachman suggested that it be left with this committee as to just what the apportioning should include.

The report on new fire hall from Ald. Richards is still pending.

At 9:15 a fire alarm occurred and the mayor called an adjournment for ten minutes so that all the council members the moment of the fire. Both teams were out of the barn in less than a minute. It was ascertained that the fire was in the Edmonton Lumber Co.'s yards.

On returning to business Ald. Richards took the occasion to again point out the necessity of keeping land for city fire stations and it was agreed that in the near future this must be provided for.

Fire Chief Stone's report was read that he had been called out nine times already this month and requesting that an extra man be hired to give him his whole time so that it would not be necessary to call volunteers for gratie

and benefit fees. The council granted him an extra man to be engaged for a month.

Ald. Tipton submitted correspondence which he has had with the Galton Harrow Co. with reference to locating their Canadian factory in Strathcona. He had come in touch with these people at an employment exhibition in Kansas City. The council authorized Ald. Tipton to continue his negotiations offering the firm every inducement they could reasonably expect.

The bylaw to keep heavy traffic off Strathcona Avenue passed two readings.

The city engineer states that he has asked for specifications and figures on the Whyte Avenue bridge over Mill Creek to be submitted by May 1st.

The council then adjourned until Friday night to consider estimates.

The following amounts were ordered paid: Strathcona Undertaking Co. \$5,000; Provincial Government of Alberta, \$240; Coffer and Macdonald, \$5,000; McComb Hardware Co. \$2,400; McCallum & Woodcock, \$2,000; Mrs. E. Simmon, \$3,000; D. H. Smith, \$2,500; Louise S. Smith, \$2,000; Mrs. H. H. Smith, \$2,000; Mrs. E. H. Smith, \$2,000; F. Taylor, \$2,000; P. Manning, \$1,200; Northern Electric & Mfg. Co. \$2,000; H. Brown, \$2,000; McComb and Co., \$2,000; A. H. Richards, \$2,000; John Walker, \$2,000; J. S. McWhirley, \$2,000; Gurney Standard Ward Co., \$2,000; Curran & Lawrence, \$2,000; Strathcona Electric Co. \$2,000. A total of \$36,400.

Ald. H. A. Callier is absent from the city on a trip to the coast.

On Friday evening the Fox Concert Company appear in the Coliseum. Assembly Hall under the auspices of the S. C. I. Mr. Fox has with him an exceptionally strong company.

Two new real estate divisions about Strathcona are being placed on the market. One to the southwest about Garden Park is already up for sale, and the other, Windsor Park is to be subdivided and will probably be for sale in the near future. This latter is especially west of the University Grounds and lies along the bank of the river. It contains a great deal of choice residential property.

## MORE MONEY IS REQUIRED

Hospital Board Asks City Council to Provide \$175,000.

### GET AFTER NEW INDUSTRIES

Commissioners and Industrial Committee Will Submit Scheme of Inducements at Special Meeting.

Mr. Mayne McKenzie appeared before the city council last night to ask that a bylaw to raise \$175,000 in addition to the \$200,000 already granted, be used in the building and equipment of the new Royal Victoria hospital, be submitted to the people.

"We think it probable that all the citizens be asked to help contribute this money," explained Mr. McKenzie, who spoke for a delegation from the hospital board. "Only a few of the citizens can be used by subscription, and occasionally some do not or will not give anything. The hospital's Board and some others are not contributing a cent to the hospital or to any other charity. And they do not believe in the life by relating to make a deal with us in regard to land."

Ald. Hyndman: "If we give this money, will the hospital be controlled by the municipality?"

Mr. McKenzie: "That rests with the council. If the council wants to take over the management they can do so, but I think perhaps the present board system would be better."

Ald. Garripy: "We have a two-fifths representation already."

Ald. Modell remarked that in Toronto the city hands over the money to the hospital board and they see that it is spent wisely.

After the general advantages, the construction of the hospital and its assets had been pointed out by Mr. McKenzie, Ald. Garripy moved that the question be referred to the committee with instructions to find out how some of the leading cities of Canada and the States have dealt with the hospital problem, and to report as soon as possible.

That Gas Engine Again

Supr. McNaughton submitted a report on what could be done with the gas engine. He had consulted with the Alibi-Chalmers people on his recent trip to Milwaukee, and reported as follows:

The Alibi-Chalmers proposition is as follows: "They will furnish three producers to replace the two existing producers, together with all pipes, connections, gas washing apparatus, tar extractors, and other auxiliaries, the type to be such as to allow of continuous operation. They will also furnish the services of erecting men to supplement the erection and construction. The city furnishes the fire brick, as we have a considerable amount on hand, together with the common labor and rigging necessary to unload and erect this material. The price for the above is \$1,000. F. O. B. Edmonton, freight and duty paid."

"If the present plant is to be repaired the terms are material and skilled labor required, material F.O.B. Milwaukee, the city to pay freight and duty and to furnish labor here."

"When the above additions are made they guarantee that it will turn out power at the switchboard at a cost not exceeding 85c per kilowatt hour. They bond themselves to carry out this guarantee to the amount of \$15,000 for one year from the date of starting. The above guarantee covers fuel, oil, maintenance, water and labor."

"The alternative proposition is to turn the gas producer into a steam plant at a cost of \$65,000. This steam plant would have a capacity of 1200 k.w. against two k.w. of the present gas engine. The capital charge k.w. on the gas plant would be \$293, and on the steam plant \$178."

The report was laid on the table to be taken up in the near future.

Getting New Industries

Ald. Lindy announced that the manager of the Quebec Ore Co. from Chicago, accompanied by the manager of the Peterboro branch, had been in the city, and had been interviewed by the industrial committee. The company is looking for a site in Edmonton, will not locate here unless some definite proposition, with some inducement, is held out to them.

"These people are going to commence building either at Calgary or Edmonton in the next sixty days," said Ald. Garripy. "They are now looking at the some property in the end of the C.N.R. tracks, but will not purchase until they hear what the city has to offer them. If they do locate here, they will require five or six

acres of property. The company will employ five or six hundred men, and there is also a good possibility of getting a stock food company to come here too, to use the by products."

"One factory brings in another," concluded Ald. Lindy, "and I think it is up to us to get after these people."

"I certainly think we will have to boom up a bit if we want to get industries here," remarked Ald. Armstrong, and Ald. Miller declared it was important to establish a large pay-roll in the city.

It was finally decided to let the commissioners and the industrial committee draw up a scheme of inducements, and submit it as a special meeting of the council to be held on Thursday afternoon at five o'clock.

To Discuss Exhibition Tenders.

Secretary A. G. Harrison submitted tenders received by the Exhibition board for the erection of buildings, and recommended that the tender of Hanson and Doyle for \$20,000 be accepted. As this was not the lowest tender, the council decided to hold a special meeting on Thursday afternoon at five o'clock and have the Exhibition board explain why the lowest tender was not accepted.

Solicitors Report Re Market Site.

The market site came up for discussion again when the city solicitor reported that although there is a clause in the deed of sale which says that the present site was to be used for market purposes the land has been decided that even though a market site is once established it may be changed or abandoned at the will of the council.

"What's the good of all this talk about market sites?" Ald. Modell wanted to know. "Personally I don't believe a market building is necessary at all."

Mayor Lee thought that if the people really didn't want the first street site, they could turn down the money bylaw. After some discussion and several attempts to get various committees to report on the matter, it was finally decided to lay the solicitor's report on the table until next Tuesday night, and settle the matter then.

Bylaws Were Passed.

Two bylaws were passed, one appropriating \$18,000 for extensions to the sewer system, and the other \$155,000 for waterworks extensions. In both cases the money will be raised by issuing debentures payable in forty years at 4 1/2 per cent.

Robert Ratnay's tender for laying plank walks and street crossings was accepted.

The purchase of two road graders belonging to the estate of the late Major Paton, at \$95, was authorized.

## ZELAYA WAS HARD ENEMY

(Continued from Page One)

and his associates kept up the battle. Revolution was interesting and they all the time in close touch with the leaders of the new movement. Finally the senior Zelaya issued orders that the American was to be put out of business, by fair means or foul.

They were not going to take any chance on his remaining in the country. He quite fell in with the arrangement. After twelve and a half years of Nicaragua, Canada looked every good to him. He went on the train for where he could a visit of considerable length to his old home. His marriage followed and he and his wife the spring rush to the west. He is full of hope in regard to his new venture and while he doesn't expect to have the returning time in his future, he is at least at ease. He thinks that more prosperity and more genuine happiness will come his way.

Throughout his sojourn in Central America, he had very frequent occasion to rejoice in the fact that he had a British subject. It gave him a simply protection on many occasions. Naturally he is now more than well satisfied to avail himself of the full privileges of British citizenship. Those who haven't been away from under the flag, he declares, don't realize all that it means.

The Metropolitan Stakes.

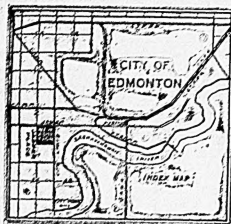

London, April 24.—Lagosa, 100 to 1, won the great Metropolitan Stakes yesterday. Charlton, 200 to 6, was second, and Relish, 20 to 1, was third. Almorán, Sabini, Fashier, Blind, Oliver H. Admiral Togo H.L., Brice of Erin, Gilly Collum, Laughing Mares, St. Maloy, Idington Green, Decatur, Stormchick, Black Seal, Creator, Orchestre, Enthusiastic Lad, Bachelor's Chance, Jackie Green.

**A. Bruce Powley, JEWELLER.**

Issuer of Marriage Licenses  
Official Watch Inspector C.N.R.

and every way else. This was on March 18 of this year. He travelled alone and an officer of the government had travelled by same train who did he see anyone he knew from Edmonton in Winnipeg.

When he saw Clarke on that occasion the latter led him to believe he was coming here to give evidence before the Commission. He had not seen him since he left him in Winnipeg. He did not get any papers of any kind from Clarke in Winnipeg at that or any time since.

### The Hawes Papers.

Mr. Bennett cross-examined the witness and asked him if it was true that he had been with the Northern Hardware Co. and had left there under peculiar circumstances. The witness replied that he did not think this could be said and also said that he had left the Liberal Club voluntarily. Mr. Bennett then took the witness into the question of townships and asked him if he was interested with Dr. Strong of Edmonton in property. Mr. Bennett said that they owned property in the north end of the city but not in any A. & G. W. townships or at Fort McMurray. Others interested in this matter were John R. McIntosh, the two Galliers and A. F. Ewing. Dr. Strong had asked him if a man named Gordon who had squatters rights at Fort McMurray could hold them if he had a homestead at Prince Albert. He had promised to find out but did not do so. Witness had never spoken to Gordon about whether his property was valuable or not although he had known Gordon for some years.

Mr. Bennett then took witness back to his telegram to Clarke telling him to get the business of procuring the Hawes papers. If he had told Walsh that it was the Hawes paper he had got mixed up. He meant the Hawes papers although he heard that Hawes had papers that might stampede the legislature. He did not know what had become of any of these papers, and certainly did not know what the papers were. He had seen the wire urging Clarke to get the papers because he thought it was important and that if legislature were stampeded it might tie up the work of the railroad. He had given to understand that Clarke knew these papers were important.

Regarding the information that Mr. Cross had resigned which he had sent to Clarke, he said he had been told personally by the Attorney-General that he had resigned and that Mr. Rathbun's asking Mr. Cross to resign was the cause of this. He had not told Mr. Cross he would wire this to Clarke, but had considered it was his duty to let his employer know what was going on.

Mr. Bennett then took McKinnon back to his meeting with Clarke when he was employed as right of way agent for the company. McKinnon said he had spoken to Mr. Cross to see his influence in getting him a position on the road and Mr. Cross had promised he would, but they had not discussed the kind of position that would be suitable for him. As a matter of fact he had not found it necessary to use any influence as he had been engaged by Clarke at their first meeting.

Mr. Bennett was still examining the witness on this point when the commission rose for the noon adjournment.

### Traction Engine Joy Ride.

Portage des Sioux, Mo., April 20.—This village has been treated to many rare sights in the way of joy rides from St. Louis, a few miles away, but it remained for a sixteen year old boy to give the said citizens some new thrills.

Carl St. Cn took his father's new traction engine out for a trial spin. Under full steam the machine charged down the main street, halting and jumping sideways under the inexperienced handling of the amateur chauffeur.

All went comparatively well, however, until the blacksmith shop got in the way. The machine pursued its way through the shop, emerging from the wreckage minus a few trimmings, but otherwise undamaged.

A maple tree half a mile away proved the undoing of St. Cn. A few minutes later, and his ride came to a sudden end, the machine refusing to climb the tree.

### Increase Was Unsolicited.

Montreal, April 20.—The Montreal Street Railway announces an unsolicited increase of one cent per hour of fare to its three thousand conductors and motormen in its employ. The increase makes the minimum rate 19 cents and maximum 21 cents. The latter rate also carries with it free uniforms.

## IN FASHION'S TREND.

Hint For Remodeling a Last Year's Party Dress—The Touch of Black.  
A last year's evening frock can be quickly brought up to date by the addition of a drapery of some light material matching the color of the gown, or a flowered chiffon or spangled effect is good. The drapery is simply caught just below the bust like the bib of an apron, the material falling in a deep point below the knees, and is then taken around the waist to the back, where it is arranged according to fancy. Jet buttons are a favorite mode of adding the valuable touch of black to

TRUCKED AND REMODELED WITHOUT A colored garment. Tulle weighted and edged with embroidery is much used for overdresses.

Scarfs of white pongee are very attractive. They are finished with buttonholing and have more or less elaborate hand work as well.

Afternoon and evening costumes show the three-quarter and elbow sleeves, but all garments for practical wear have long sleeves.

Blouses such as this one are in demand at all seasons of the year. It is a charming model for the flange waist. The sleeves are attractively tucked, and the daisy design is very simple and pretty.

### JUDIO CHOLLE.

This May Mantle pattern is out in sizes from 34 to 42 inches bust measure. Send 10 cents each for the pattern—blouse 65 and embroidery design 65—and you will be promptly forwarded to you by mail. If in haste send an additional five cent stamp for letter postage, which assures more prompt delivery.

**ONLY \$110.00 EACH**

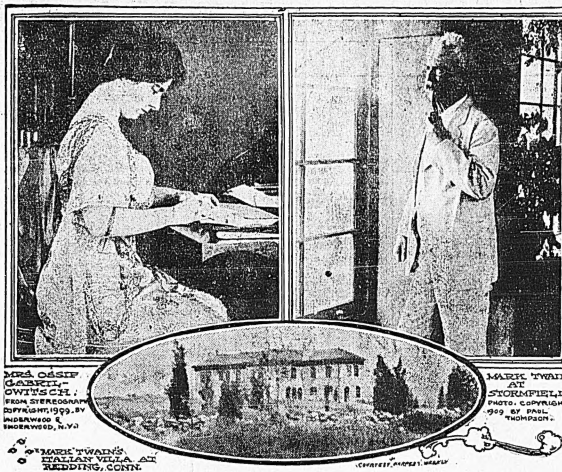

**TERMS : — One third cash, at the time of sale and the balance in 6 and 12 months at 6 p.c. interest, 5 p.c. discount for cash.**

As the public well know who are acquainted with Realty values, this is a **very great bargain**, and we wish to state to those who may not have time to examine this property before purchasing, that we will positively guarantee every lot to be high and dry, and if upon examination of property any purchaser is not satisfied they have got a bargain, we will return any monies they may have paid down upon the property, within three days from date of sale.—This should be conclusive proof to those who do not know values, and to those who do we advise you to act quickly. We have never had anything better either in quality or value to offer for this extremely low price. Remember these lots are all large lots and are located on the west side of the street.

Mark Twain and His Home at Redding, Conn., Where he is Seriously Ill.

## MARK TWAIN WEAKER

Distinguished & American Author and Humorist in Dangerous Condition.

Redding, Conn., April 20.—The condition of Samuel L. Clemens (Mark Twain), who is seriously ill of angina pectoris at his home here, was reported practically unchanged today from that of last night when he was said to be resting quietly but to have grown weaker.

## Shakespeare Wins Suit.

Muskogee Okla., April 20.—Passages were quoted by attorneys for the defence in a \$10,000 suit in the district court here the other day and so impressed the jury that it rendered a verdict declaring the plaintiff had no grounds for suit.

Louis Hall, who asserts that he is of Portuguese descent, entered suit against officials of the school board and officers of a literary society at

Okala, near here, for excluding him from a white school and denying him membership in the society. Attorneys for the defendants quoted Shakespeare's Othello to prove there is a strain of African blood in the Portuguese race.

## Woman Fatally Burned.

San Francisco, April 20.—While attempting to save her baby from death Mrs. Sadie McDougall was probably fatally burned yesterday at her home, 1234 Turk street. The woman had arisen to heat milk for the child. In some unknown manner the bed clothing caught fire. Mrs. McDougall seized the child from the blazing bed, and while doing so her night clothing became ignited. Before aid came, the mother was able to beat out the flames, but soon became unconscious. She was taken to the Mission hospital, where she probably will die.

## Big Fleet Around World.

Chicago, April 20.—A special to the Tribune from Washington says: President Taft and Secretary of the Navy Meyer plan to send the greatest battleship fleet ever assembled around the world.

The programme will become operative on July 1 of this year, and by 1913 the plans will have culminated and the fleet will begin the trip, which will overshadow that which the sixteen battleship fleet made at the close of the Roosevelt administration.

If congress allows the department a free hand there will be a fleet on the Pacific larger than the entire American fleet at the time of the Spanish-American war.

## W. R. Hearst Back Again.

Washington April 20.—The possibility of the Democratic campaign being launched with the cry "Hearst, Hearst and harmony" is being discussed here, following the Jefferson day banquet, at which John Temple Graves announced that Wm. Randolph Hearst is ready to return to the Democratic party.

# THE PORT OF MISSING MEN

By MEREDITH NICHOLSON.

Author of "The House of a Thousand Candles"

COPYRIGHT, 1907, BY THE BOBBS-MERRILL COMPANY

counsel for several of the embassies and a recognized authority in international law. He had been to Rome to report to the Italian government the result of his efforts to collect damages from the United States for the slaughter of Italian laborers in a railroad strike and had proceeded thence to England on other professional business.

Dick Claiborne had been ill and was abroad on leave in an effort to shake off the lingering effects of typhoid fever contracted in the European theater. He was under orders to report for duty at Fort Myer on the 1st of April, and it was now late March. He and his sister spent the morning at the morning of their brother's arrival and were enjoying the delights of the Monte Rosa. There existed between them a pleasant comradeship that was in no way affected by divergent views and temperaments. Dick had just attained his majority and was the youngest man of his age in the service. He did not know an orchid from a hollyhock, but no man in the army was a better judge of a cavalry horse, and it was a Wagner recital led him to death his spirit rose nevertheless to the bagpipe, and he drilled his troop unit he could play a waltz and it snap it about him like a whip.

Shirley Claiborne had been out of college a year and afforded a pleasant relief of the dull theory that advanced education destroys a girl's charm or buoyancy, or whatever it is that is so greatly admired in young womanhood. She gave forth the impression of vitality and strength. She was heartily fair, with a high color that accentuated her youthfulness. Her brown hair, caught up from her brow in the fashion of the early years of the century, flashed gold in sunlight.

Much of Shirley's girlhood had been spent in the Virginia hills, where Judge Claiborne had long maintained a refuge from the heat of Washington. From childhood she had read the clouds of spring as it is written upon the landscape itself. Her fingers found by instinct the right arbutus. She knew where white violets should first appear on the rough breast of the hillsides, and particular patches of rhododendron had for her the intimate meaning of private gardens.

When Shirley and her brother reached their common sitting room, Dick Claiborne laughingly held up the copy of the New Frodo Press which Armitage had sent aside at their table.

"Now we shall know," he declared, unfolding the newspaper.

"Know what, Dick?"

"At least what our friend without a country is so interested in."

"He opened the paper, from which half a column had been torn, noted the date, rang the bell and ordered a copy of the same issue. When it was brought he opened it, found the place, laughed loudly and passed the sheet over to his sister."

"Oh, Shirley, Shirley! This is almost too much!" he cried, watching her as her eyes swept the article. She turned away to escape his noise and after a glance at the paper in the pocket of the article dealt in detail with Austro-Hungarian finances and fairly bristled with figures and acute conclusions based upon them.

"Isn't that the worst?" exclaimed Shirley, smiling ruefully.

"It's certainly a dramatic figure ready to your hand. Probably a bank clerk who makes European finance his recreation."

"He isn't an Englishman, at any rate. He regulated the idea with scorn."

"Well, your Mr. Armitage didn't seem so awfully excited at meeting me, but he seemed rather satisfied with your appearance, to put it mildly. I wonder if he had arranged with Singleton to pass by in the presidential way, just for the privilege of making your acquaintance?"

(To Be Continued)

## DR. WADDELL ON BALLAST

Prairie Loan was not to be Used on the A. and W. G.

FISH PLATES WON'T BE USED

Interesting Points About the Specifications Were Cleared up Yesterday Afternoon Before Commission.

The afternoon session of the investigation yesterday did not bring forth any material evidence. Dr. Waddell, the chief engineer of the company, was on the stand all day and the bulk of the time was taken up by R. B. Bennett, chief counsel for the insurance, in his cross-examination of the witness. When Bennett was through S. B. Woods, ex-Deputy Attorney-General, who is acting for Premier Rutherford, took the witness in hand and succeeded in clearing up a few matters which were rather complicated before this time.

One of these questions was to the kind of ballast to be used on the road. That a great deal of publicity had been given to the fact that prairie loam was to be used was pointed out by Mr. Woods, but when he placed the original contract in the hands of the witness and asked him to read what it said in regard to ballast Dr. Waddell replied that it read that it did not mention prairie loam but instead that the "road was to be well ballasted with suitable material." Asked what he would consider suitable material he replied coarse sand and gravel mixed.

Another point was the difference between the specifications submitted by Dr. Waddell and those finally accepted by the government. In the morning examination it had been made to appear by Mr. Bennett that the specifications finally adopted were much inferior to those at first suggested by the company. Mr. Woods gave the witness copies of the specifications and asked him to name the differences between the two. The only differences Waddell could point out were that the government specifications called for the embankment to be 14 feet instead of 12 feet as called for by the Waterways specifications, and that the gravel would be used instead of the prairie loam. Both of these differences were on the side of the government, but against this Dr. Waddell's specifications called for suitable fastenings for the rails while the government specifications called for fish plates. Dr. Waddell qualified his last statement regarding fishplates by saying that anglebars, a much improved fastening had already been ordered and that fish plates would not be used on the road.

Two Bank Accounts

During his examination Dr. Waddell also cleared up some of the confusion of the Waterways Railway having two accounts in the bank. When the trouble in the House commenced the Royal Bank had refused to advance any more money to the company and it was therefore necessary for the company to finance the project through his own banking house in Kansas City. In order to know just how much he would have to be reimbursed when the time came they had kept the accounts separate.

Dr. Waddell also stated in reply to questions by Mr. Woods that when he had conferred with John Stocks and Chalmers, the engineers of the Public Works Department, they had agreed on several clauses and that they certainly gave him the impression that they knew the deal with the government would be closed along those lines.

C. N. R. Specifications

When the afternoon session began Mr. Bennett in his questioning took the witness back to the time when the specifications of the engineers of the Department of Public Works were submitted to the Waterways people and rejected by them. It was at this time the impassé arose, the government refusing the Waterways specifications, and Clarke resigned the government specifications. Finally a compromise was reached where both sides agreed to use the specifications used by the Canadian Northern.

After this point was established Mr. Bennett asked Dr. Waddell if he remembered what estimate Engineer Darling, who was acting for the Royal Bank in the matter had placed on the cost of the road. As far as the witness remembered he thought it was fixed at somewhere about \$18,000 per mile.

The next question brought the witness back to his meeting with the cabinet on November 14, 1908, when the question of bonds etc. was brought up and when the contract was signed. At this time the length of

mileage to be guaranteed was 350 miles. As far as the witness recollected Clarke asked for more mileage than this and the government only wanted to guarantee a lesser distance but 350 miles was the compromise finally reached. The reason Clarke wanted 350 miles at least was that he did not know what branch lines they might want to build and also any short stub lines out from the main lines. He did not remember if the guarantee for sidings was fixed on that day or not, or whether the question of the equipment was fully settled then.

Mr. Bennett then asked how it was that Dr. Waddell had sent reports to John Stocks, deputy Minister of Public Works, regarding the cost of the road, etc., after the deal had been closed up. Dr. Waddell explained by saying that Stocks had asked for this information for his files and he had sent it to him.

Regarding the first amount asked from the government by Clarke, the witness said Clarke did all the talking and first asked for \$2,000 per mile. The government refused this and the final \$18,000 per mile and the final \$2,000 was reached as a compromise.

He did not remember whether the name of the road was fixed then. He knew that three names were submitted to the Premier, among them being, Alberta Northern, and Alberta and Great Waterways suggested by Minity. This latter was the choice of the Premier.

Bond Sale Again

Mr. Bennett then ran rapidly over the first trip of Clarke and Waddell to Europe to finance the project in which they were unsuccessful. He elicited no further developments than had been brought to light in the direct examination of the witness, other than the fact that Clarke had made an offer to Bowen of \$50,000 for his share in the project in exchange of financial matters going smoothly. However, the floating of the bonds was not accomplished on this trip and it took another visit to Europe after the legislation had been passed before the bonds were sold.

The witness covered the same ground as he did yesterday afternoon, saying that he understood from Clarke that he (Clarke) was selling the bonds outright and was only getting about par for them. He also appeared somewhat disgusted that he had received no commission on the sale of same. Mr. Bennett then asked the witness if Morgan & Co., the bonds for sale and showed that the proceeds were to be placed to the credit of the province indicating that Morgan & Co. were only acting as agents. Dr. Waddell repeated that all the bank was far from the project through his own banking house in Kansas City. In order to know just how much he would have to be reimbursed when the time came they had kept the accounts separate.

Favor Public Ownership.

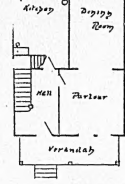

Regina, Sask., April 20.—With the Lord's Day Alliance and the Trades and Labor Council definitely lined up in opposition to the granting of the street railway franchise to J. W. De Courcy O'Grady and other Winnipeg financiers, there appears to be every likelihood that there will be a strong fight before the passing of the street railway bill which is to be voted on May 6th.

Mr. Wood's Questions

Mr. Woods asked Mr. Waddell if there was any material difference between the specifications first submitted by Dr. Waddell and the specifications finally accepted. Beyond the fact that prairie loam had been struck out of the specifications finally accepted and that the "road was to be well ballasted with suitable material for ballast" put in and that the embankments were to be 14 feet instead of 12 feet, there was no difference at all. Dr. Waddell then went on to explain that gravel and very coarse sand would be suitable material for ballast on this road.

Mr. Woods asked him what the cost of a siding would be ordinarily, but the witness replied that it varied greatly and could give no definite information. In reply to further questions by Mr. Woods the witness said Clarke was interested in an electric railway between Seattle and Tacoma which he was financing with his own money and also in construction work in California. He also admitted that in his

## WIFE WAS SENT BACK TO RUSSIA

Strange Predicament of a Man who Sought to Obtain Wife Through the Courts.

Montreal, April 19.—To seek one's wife by way of habeas corpus, only to find out that she has gone forever beyond reach is the predicament of Mr. Elie Zarbaty, electrician of this city. Zarbaty, who is a Syrian, was in love with a young Yiddish woman, Sarah Reisman. The family of the latter objected, and when Zarbaty asked to be married he was refused by her family.

Finally, after trying all available means to have her parents reconsider their decision, the couple decided to get married, and were made man and wife before Rev. Harry Calvin Barrett at Malone, N.Y., October 5, 1909. After the ceremony the couple returned to Montreal.

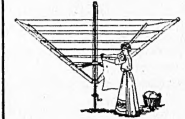

But when the family of the bride learned of what had taken place they, it is alleged, forcibly separated her from her husband, and would not consent to surrender her to him unless he would get married again under the Hebrew rite. This Zarbaty refused to do. He claimed he was a Christian, and had already been legally married at Malone.

In despair Zarbaty decided to ask the intervention of the law, and took habeas corpus proceedings against his wife's family, all named as defendants, to bring her to court.

They were all present in the Practice Court before Mr. Justice Lafontaine except the one sought. Zarbaty's wife was not there, and would not come, as she left the country on her way to Europe two weeks ago, bound for Russia.

It was declared that it was one of the defendants, Isaac Simon, grandfather of the petitioner's wife, who sent her back to her native land and paid her passage. Under these circumstances the case was dismissed without costs against the unfortunate husband.

## SIX MONTHS SENTENCE.

John Perry was Convicted of Passing Two Forged Notes.

G. H. Pope, right of way agent for the G.T.P., was in the city this morning settling up some minor business. He leaves this afternoon for the coast.

Lee Samuels, the pitcher from the Coast, reported this morning to Manager White and was out at practice. He is over six feet in height and is in excellent shape, as he has been working out with the Red Sox club. Jack Brennan will be on hand today and also Luss. Transportation has been sent to the two pitchers, Dell and Deller. This will give Edmonton a pitching staff of six. Next Wednesday or Thursday will be field day and the players will compete for cash prizes. Special attention will be given to the circuit of the bases and beating out bunts.

At three o'clock yesterday afternoon the fire department was called to a fire which had broken out in the kitchen of the Olympic Cafe on Jasper west. It appears that owing to a defect in the stove the stove had caught fire and had been smouldering all morning. The smoke had all gone down into the cellar so that when the firemen arrived and cut open the flooring the volumes of smoke were so dense that it was thought that the whole building was on fire. Very little damage was done and the restaurant will open again tomorrow night. The house was fully insured.

## Vote Will Be Small.

Voting on the bylaws is very dull today. But little interest seems to be taken by the majority of the ratepayers. Up to noon today only 66 voters had marked their ballots, representing 160 votes. No autos or carriages are in evidence today, no was the case when the market street plebiscite was voted on last February. Judging by the general sentiment of those voting, all the bylaws ought to be sustained.

## Agreement With Radial.

As the result of a conference between the city and the radial railway company held yesterday afternoon, it was decided that all the necessary new lines should be built by the city, the company to pay all fixed charges on any lines built for their special benefit, until such time as the city may decide to take up the lines for its own use. In addition the company will pay for the current supplied within the city limits.

## Use for Market Site.

At last a solution of the market site problem has been offered to the Commissioners. T. G. Pierce, 912 Fraser avenue, sent the following letter to Commissioner Burchard:

"If the council does not intend to use the new market site on First street this summer, I should like to have the use of it for a garden. I would clean it up, and plow and level it for the use of it."

It is hardly likely that the Commissioners will accept the offer.

## TOO MUCH PERJURY

Ontario Judge Deplores Frequency of it in the Courts.

Port Arthur, April 20.—The Assize Court was occupied all yesterday with the case of W. Arman vs. Joseph P. Redden, in which the plaintiff sued for \$10,000 for alienation of his wife's affections. The jury returned a verdict for the defendant.

Joseph Capron, charged with perjury for having sworn before Magistrate O'Brien at Fort William, when on trial for keeping a disorderly house, that he was married to Mary Sweet, pleaded guilty and was sentenced to five years in Stony Mountain penitentiary. Mr. Justice Latchford spoke strongly on the crime of perjury saying it was most serious in undermining the foundations upon which justice is administered and deplored that there was so very much of it with only infrequent punishments.

## Adopt the Guillotine

London, April 20.—After a stormy sitting the House of Commons on Monday adopted Premier Asquith's guillotine motion under which the finance bill must be disposed of by April 27th.

## Belleville Man Dead.

Belleville, April 20.—Death came last night to John Wesley Daise of this city. He was for over thirty years principal of the Ottawa School. He was sixty-four years old.

## Moose Jaw Grant Franchise.

Moose Jaw, Sask., April 20.—By an overwhelming majority of 38 in a total of 49 votes, the ratepayers of Moose Jaw yesterday authorized the city council to grant a street railway franchise to a syndicate of Ottawa capitalists.

## Strike at Copper Plant.

Phoenix, B.C., April 20.—Four hundred employees of the Big Copper Co. at the Greenwood smelter and the Mother Lode and Oreston mines, quit work yesterday, demanding that the company employ members of the Western Federation of Miners exclusively.

## INDUSTRIAL SITES

Offers to sell industrial sites to the city will be received by the undersigned up to Monday, May 9th, 1910. The sites must be conveniently located to railways and may be of any area from three acres up. Full particulars are requested. Offers must be in the form of options for thirty days from the above date, with a clause agreeing to extend the options for a sufficient time to allow a by-law to be submitted to the burgesses for the raising of the money necessary to make the purchase.

THE CITY COMMISSIONERS  
Apr 20 and 23.

## FLAMES TAKE LUMBER MILL

Fire Made Wonderful Spectacle From the River Banks.

## PLANT TOTALLY DESTROYED

Immense Piles of Lumber Were Saved Only by the Direction of the Wind.

Hundreds of people lined the river bank last night and watched fire destroy the Edmonton Lumber Company's mill on the flats on the south side of the river. The blaze, which was a quick and fierce one, illuminated the whole sky and seemed like a huge bonfire for which the river banks formed a natural amphitheatre. The mill was completely destroyed. Within a half hour after the fire was first discovered all that was left of the building was a heap of blazing ruins. Only the direction of the wind prevented the fire carrying away the lumber yards just west of the building, and the large quantities of lumber stored there. The total loss will be about \$200,000, with the insurance about \$200,000.

The cause of the fire is unknown. A man had been about the mill for a couple of days putting it in shape to handle the spring drive of logs. A fire had been started under the boiler but everything was all right when the engineer left at six o'clock. The fire is supposed to have started in this part of the plant. It was first seen about nine o'clock and an alarm turned in to the Strathcona fire brigade. Later an appeal was made to Edmonton for help and a fire engine and hose wagon were sent over. Like the Strathcona men they could do no more than protect the lumber which was piled near the building.

The Edmonton Lumber Company is made up of Minneapolis capitalists and the local manager is Mr. W. H. Clarke.

## Tariff Builder Retires

Washington, April 20.—Senator Nelson W. Aldrich has announced that he will retire at the expiration of his present term on March 3, 1911.

## EXTRADITION CASE WAITS

James Chapman and Mrs. Matthews to Remain Here a Week.

In the District Court today the case against James Chapman the negro who gave himself up to the Mounted Police in connection with the murder of a man named Matthews in Oklahoma, and Mrs. Matthews who is said to have committed the crime, was adjourned for a week pending the arrival of the necessary papers from Washington.

Mr. Robertson, for Mrs. Matthews, protested strongly that Mrs. Matthews had only been arrested on suspicion and that therefore the court should proceed with the case on that charge. He said that it was exceedingly unwise to keep the woman in prison for any long period, until some charge stronger than suspicion could be placed against her. He asked for bail for any amount, which was refused.
